## WAR TIME NEWS OF 50 YEARS AGO

Major Henry Peale Promoted to Lieutenant Colonel of the 18th Regiment-Chelsea File Co. to Add to Their Plant -Italian Naval Lieutenant a Guest in Norwich-Gen. Harland in Temporary Command of the North Carolina District.

"Give it to them, boys," the dying words of a soldier who fell on the battlefield fifty years ago this week, fighting for the northern cause vividly brings back to the eyes of the old veterans the noise, tumult and the brave deeds of their comrades, many of whom gave their lives that others might be freed from the curse of slavery.

"Give it to them, boys," the dying themselves of the advantage of the institute.

The mails from Sheridan's army were all captured by guerrillas. This fact will relieve the minds of those who have been fearing the worst on account of the non-reception of letters from friends engaged in the conflict.

Reports from the front brought news that a clash had taken place near Harpers Ferry between calvary forces and that the reb-els were defeated and scattered to the woods and mountains losing pieces of woods and mountains to sing pieces of artillery besides a number of prisoners.

Following are extracts from the Bulletin files of half a century ago.

Mon., Oct. 10, 1864.—Major Henry
Peale of this city has been promoted to be Lieutenant-Colonel of the

Eighteenth regiment and Captain Jos-eph Matthewson of Pomfret to be Major. In the Twenty-first regulars, Major James F. Brown of North Ston ington has been promoted to be Colone First Lieutenant A. Dwight McCall of Yantic, Twelfth regiment, was wounded in the head in Sheridan's fight, near Winchester, on the 25th ult. Sergeant-Major Forrest Spafford, Eighth C. New Building For File Company. Tues., Oct. 11, 1864.—The Chelsea File Company are on the point of put-ting up a new one-story brick building, 42x65, in the rear and a little to the left of their present works on Franklin street. From 30 to 40 hands will be employed in the new building which, it is calculated, will be completed by the fifteenth of November, the work having alread commenced.

General Lyon with a force estimated at from three to seven thousand men, attacked Hopkinsville Sunday morning, wich about 15 years ago. He had been in business in both Willimantic and New London and once kept the Miantonomo hotel. The deceased has for a number of years run the Newmarket hotel on Boswell avenue, which lately killed and 20 wounded. Our loss is killed and 20 wounded.

lady, while two different dates for the event have been set, which is now expected to take place here today, according to the date given in the application for his latest license.

Because of the fact that the young man, John Buckto, clerk in a store in

New London, is a Russian, and de-sires to be married by a Russian priest he is coming here to be mar-

ried by the Russian orthodox priest, Rev. N. Nikolendo. The successive licenses tell a tale of perserverance in love in spite of two defeats in his attempts to lead the objects of his affections to the altar. When the perservering groom to be took out his first license on September 26, his intended bride was Miss Sophia Michalevitz, who is em-ployed in a hotel in New London. The mond Collins of Westerly, employed by the Victor Laundry company of that place, is to receive compensation of \$5.50 weekly, beginning Oct. 9. for the loss of tip of third finger of left hand on Sept. 24. This is half his average weekly wage.

The T. A. Scott company and William Kale, employer and employe, both of New London, have agreed upon \$5 as before, but again there was a change in his matrimonial plans, for he made one more trip to th town cirk's offic and took out his third licase, this time stating that October 17th would be the wedding date. As his two previous intended brides have both been of his own nationali-ty, so is the one who is named in this last license. She is Miss Eleanor Cahorvic, who is employed in a hotel in New London.

YOU CATCH COLD IN

POORLY VENTILATED ROOMS Warning-Germs Thrive in Bad Air.

There is one young man in New Common colds, how to catch them setting married, judging from his persistency in securing marriage licenses at the office of the Norwich town clerk. Since September 26th three have been issued there in his name and each to a different young lady while two different dates for the lowered atmospheric temperature. This belief is growing less and less every belief is growing less and less every day. The present opinion of physi-cians is that most of them have very little to do with exposure to a low temperature, but are transferred from person to person by an infection, there being a number of micro-organisms that will cause them. The best place to catch cold is not out of doors, but in close, ill-ventilated rooms, cars, theatres or churches. Getting the feet wet or chilling the body does little more than lower the general health, making us more easy victims to them. The fact that colds are much more prevalent in winter is chiefly because at that season of the year we live in houses with doors and windows closed, nouses with doors and windows closed, thus providing an ideal place for the multiplication and transmission of the influenza and other germs. Then, too, in cold weather we take less exercise out of doors, which results in lower bodily vigor and less resistance, there fore we are more susceptible. People who live out of doors summer and winter and properly ventilate their, houses suffer little more from colds in winter than they do in summer. One seldom takes cold from normal exercise in the open air. Colds on the other hand are readily traced from one person to another through house. one person to another through households, schools, factories and often oc cur after attending crowded assem-

"What then is the remedy? We can-not destroy all the countless germs or quarantine everyone who has a cold. This is not necessary. If we keep ourselves in vigorous health, clean and warmly, but not too heavily clad, we can den germs. We may of course take cold occasionally, but we will throw it off quickly. Learn to live and sleep as much as possible in the open air. Fifty years ago it was the pop-ular belief that a person with con-sumption should not be exposed to David Bushnell of Westbrook.

The United States Navy department is looking for a sultable sponsor to christen the new submarine tender loavid Bushnell. The renowned inventor of the "American Turtle" was born in Westbrook, Conn. about 1745. Therefore to avoid taking cold we should keep the body in such excellent condition that it will resist the invasion of germs and we should avoid infection as far as possible.
